

Quality Policy

TargetEx Ltd. provides bespoke biotechnology solutions that are recognised for their excellence in protein development and manufacturing.

We firmly believe that biotechnology is one of the most revolutionary and innovative industries of our time. By providing services and products to the best of our abilities, we are proud to participate in global innovation by making cutting-edge technologies available (for our clients and fundamentally to the public).

Our mission is to provide tailored biotechnology solutions and high-quality protein products that meet our clients' unique needs, fostering future innovation and success.

Our Quality Policy:

TargetEx Ltd aims to achieve its mission by applying progressive management principles and an effective quality management system. The main goals of our quality-related activities are the following:

1. We are dedicated to achieving professional excellence in selecting and advancing our staff, ensuring they possess the necessary qualifications and receive continuous, iterative training.
2. We are dedicated to strengthening the commitment and motivation of our employees, focusing on their responsibility, self-development, in order to achieve shared goals.
3. We deeply value a conscious and profound understanding of scientific and industrial standards, and we encourage our staff to act proactively.
4. We are committed to delivering competitive, cutting-edge products and services through permanent innovative activities.
5. We are dedicated to empowering our clients with competitive advantages within the field of biotechnology by ensuring cost-effective, efficient, and reliable technologies and solutions in all of our products and services.
6. We strive to continually meet and eventually go beyond our customers' needs to increase their satisfaction.
7. We aim to support innovation and R&D to bring high-performance, state-of-the-art products to market.

To achieve these objectives, we implemented and operate a Quality Management System following the requirements of the ISO 9001:2015 international standard. We are committed to satisfying applicable requirements and to the continuous improvement of our QMS, which is an ongoing task that shall be incorporated in the activities of all the members of our staff.
