

PRODUCT LIST

BULK REAGENTS

TargetEx Robust Bst Polymerase Lyo-Ready 5 mg/mL

Modified DNA polymerase from *G. stearotherophilus*
for fast isothermal amplification

TGX-028-BS —> < 5 mg
 TGX-028-BM —> 5-100 mg
 TGX-028-BL —> > 100 mg

TargetEx Rapid Reverse Transcriptase 2 mg/mL

Modified M-MLV RTase with lower RNase H activity
and increased thermal stability

TGX-003-BS —> < 5 mg
 TGX-003-BM —> 5-100 mg
 TGX-003-BL —> > 100 mg

TargetEx Tolerant Reverse Transcriptase 1 mg/mL

Modified M-MLV RTase with lower RNase H activity
and enhanced inhibitor tolerance

TGX-022-BS —> < 5 mg
 TGX-022-BM —> 5-100 mg
 TGX-022-BL —> > 100 mg

TargetEx Fine Taq Polymerase 1 mg/mL

Reliable Taq polymerase with very low
host cell DNA concentration

TGX-033-BS —> < 5 mg
 TGX-033-BM —> 5-100 mg
 TGX-033-BL —> > 100 mg

TargetEx Fine Taq Polymerase 10 mg/mL

Reliable Taq polymerase with very low
host cell DNA concentration

TGX-032-BS —> < 5 mg
 TGX-032-BM —> 5-100 mg
 TGX-032-BL —> > 100 mg

Custom sizes & formulation

Need higher quantities, unique concentration or custom buffer? No problem; we'll adapt to your needs. With our expertise and responsive approach, we efficiently meet unique project requirements.

CONTACT US TODAY to discuss your project in detail, and let us find the best solution together.

ABOUT US

TargetEx is the powerful ally
in your **biotechnological**
advancements

TargetEx is your trusted ally in Biotechnology Research and Development, dedicated to discovering the best approach for your unique challenges. Our mission is to build collaborative partnerships and find bespoke solutions, ensuring that our valued clients not only find support but also build long-lasting relationships.

Let's start
a **conversation!**
